RULING ON ENTITLEMENT¹

Dorsey, Chief Special Master:

On May 28, 2015, Diane Sphar filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² [the “Vaccine Act”]. Petitioner alleges that she suffered a radial nerve injury in her right arm as a result of an influenza (“flu”) vaccine she received on November 18, 2013. Petition at 2. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 21, 2016, respondent filed her Rule 4(c) report in which she concedes that petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, respondent states that based on the current record, petitioner has satisfied all legal prerequisites for compensation under the Act. *Id.* at 4.

¹ Because this unpublished ruling contains a reasoned explanation for the action in this case, the undersigned intends to post it on the United States Court of Federal Claims’ website, in accordance with the E-Government Act of 2002, Pub. L. No. 107-347, § 205, 116 Stat. 2899, 2913 (codified as amended at 44 U.S.C. § 3501 note (2006)). In accordance with Vaccine Rule 18(b), petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, the undersigned agrees that the identified material fits within this definition, the undersigned will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

In view of respondent's concession and the evidence before me, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
