Dorsey, Chief Special Master:

On November 14, 2016, petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barré syndrome (“GBS”) as a result of an influenza (“flu”) vaccine administered on November 25, 2013. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 21, 2018, respondent filed his Rule 4(c) report in which he states that he does not contest that petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. petitioner suffered GBS following the administration of a seasonal flu vaccine, and that the onset occurred within the time period specified in the Table.” *Id.* at 7. Respondent further states that “[r]ecognizing that petitioner may re-file this petition and be afforded a presumption of causation under the revised Table (see 42 U.S.C. § 300aa-16(b)), respondent will not contest entitlement to compensation in this case”. *Id.* at 7-8.

In view of respondent’s position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
