### **RULING ON ENTITLEMENT**<sup>1</sup>

**Dorsey**, Chief Special Master:

On December 22, 2016, petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that he suffered from Guillain-Barre syndrome (“GBS”) as a result of an influenza (“flu”) vaccine administered on December 23, 2013. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On July 27, 2017, respondent filed his Rule 4(c) report in which he states that he does not contest that petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, “[i]t is respondent’s position that petitioner has satisfied the criteria set forth in the newly revised vaccine injury table (“Table”) and the

Qualification and Aids to Interpretation (“QAI”).” *Id.* at 6. Respondent further agrees that “[a]lthough the revised Table only governs petitions filed on or after the effective date of the final rule, the evidence shows that petitioner suffered GBS following the administration of a seasonal flu vaccine, and that the onset occurred within the time period specified in the Table.” *Id.* Therefore, “[r]ecognizing that petitioner may re-file this petition and be afforded a presumption of causation under the revised Table, respondent will not contest entitlement to compensation in this case.” *Id.*

**In view of respondent’s position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
