**RESPONDENT’S PROFFER ON AWARD OF COMPENSATION**

In her August 18, 2017 decision, the Chief Special Master found that a preponderance of the medical evidence indicates that petitioner suffered a shoulder injury related to vaccine administration (“SIRVA”), which was causally related to the flu vaccination she received on September 21, 2015. The parties have now addressed the amount of compensation to be awarded in this case.

I. Compensation

Based upon the evidence of record, respondent proffers that a lump sum of \$91,202.54 should be awarded petitioner. This lump sum amount represents all elements of compensation to which petitioner would be entitled under 42 U.S.C. § 300aa-15(a).<sup>1</sup> Petitioner agrees.

II. Form of the Award

Petitioner is a competent adult. Accordingly, the parties recommend that the compensation provided should be made in the form of a check for \$ 91,202.54 payable to petitioner.

---

<sup>1</sup> Should petitioner die prior to entry of judgment, respondent would oppose any award for future medical expenses, future lost earnings, and future pain and suffering, and the parties reserve the right to move the Court for appropriate relief.
