Special Processing Unit (SPU);
Ruling on Entitlement; Concession;
Table Injury; Influenza (Flu) Vaccine;
Shoulder Injury Related to Vaccine
Administration (SIRVA)

Harrison Whitten Long, Rawls Law Group, Richmond, VA, for petitioner.

Daniel Anthony Principato, U.S. Department of Justice, Washington, DC, for respondent.

RULING ON ENTITLEMENT¹

On February 6, 2019, Jeanne Tilley filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that she suffered a left Shoulder Injury Related to Vaccine Administration (SIRVA) after receiving an influenza (“flu”) vaccine on October 18, 2017. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 9, 2020, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report

¹ Because this unpublished ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims’ website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

at 1. Specifically, Respondent concedes that Petitioner’s “medical course is consistent with SIRVA as defined on the Vaccine Injury Table.” *Id.* at 3. Respondent further agrees that Petitioner had no recent history of pain, inflammation, or dysfunction of her left shoulder; her pain occurred within 48 hours after receipt of the vaccination; her pain was limited to the shoulder where the vaccine was administered; no other condition or abnormality has been identified to explain Petitioner’s shoulder pain; and Petitioner suffered the residual effects of her condition for more than six months. *Id.*

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
