RULING ON ENTITLEMENT¹

On May 16, 2019, Geri Meyer filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration which meets the Table definition of SIRVA and was caused in fact by the tetanus diphtheria vaccine she received on September 27, 2017. Petition at 1, ¶¶ 2, 16. Petitioner further alleges she received the vaccine in the United States, that she suffered the residual effects of her SIRVA for more than six months, and that neither she nor any other party has filed a civil action or received compensation for her injuries, alleged as vaccine caused. Petition at ¶¶ 2, 16-18. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On September 22, 2020, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent concluded that petitioner suffered a Table injury of left SIRVA." *Id.* at 5. Respondent further agrees "that based on the record as it now stands, compensation is appropriate, as petitioner has satisfied all legal prerequisites for compensation under the Act." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
