RULING ON ENTITLEMENT¹

On July 18, 2019, Lee Ann Wellerritter filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that that her receipt of an influenza (“flu”) vaccine on October 1, 2018 caused her to develop a left shoulder injury related to vaccine administration (SIRVA). Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 19, 2021, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, it is Respondent’s position that Petitioner has satisfied the criteria set forth

¹ Because this unpublished ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims’ website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

in the Vaccine Injury Table and the Qualifications and Aids to Interpretation. *Id.* at 6. Respondent further agrees that Petitioner “had no history of pain, inflammation, or dysfunction in her left shoulder; her pain and reduced range of motion occurred within 48 hours of her receipt of an intramuscular vaccination; her symptoms were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality was identified to explain her symptoms.” *Id.*

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
