

In the United States Court of Federal Claims

OFFICE OF SPECIAL MASTERS

No. 20-1758V

UNPUBLISHED

LINDSAY NOWLAND,

Petitioner,

v.

SECRETARY OF HEALTH AND
HUMAN SERVICES,

Respondent.

Chief Special Master Corcoran

Filed: March 14, 2022

Special Processing Unit (SPU);
Ruling on Entitlement; Concession;
Table Injury; Influenza (Flu) Vaccine;
Shoulder Injury Related to Vaccine
Administration (SIRVA)

Paul R. Brazil, Muller Brazil, LLP, Dresher, PA, for Petitioner.

Catherine Elizabeth Stolar, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On December 3, 2020, Lindsay Nowland filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a right shoulder injury related to vaccine administration (“SIRVA”) as a result of an influenza vaccine received on October 3, 2019. Petition at 1. Petitioner further alleges the vaccine was administered in the United States, her symptoms persisted for more than six months, and neither Petitioner, nor any other party, has ever filed any action for or received compensation in the form of an award or settlement for her vaccine-related injury. Petition at ¶¶ 1, 5-7. The case was assigned to the Special Processing Unit of the Office of Special Masters.

¹ Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims' website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On March 14, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner had no history of pain, inflammation or dysfunction of the affected shoulder prior to her vaccination that would explain the alleged symptoms and examination findings occurring after vaccine injection; she more likely than not suffered the onset of pain within forty-eight hours of vaccine administration; her pain and reduced range of motion were limited to the shoulder in which the vaccine was administered; and there is no other condition or abnormality present that would explain petitioner's symptoms." *Id.* at 6. Respondent further agrees that "[t]he records also show that this case was timely filed, that petitioner received her vaccination in the United States, and that petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
