due to her vaccine-related injury. Amended Petition at 2, 17. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On October 18, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Respondent concluded that "[P]etitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table." *Id.* at 4. Specifically, Respondent determined that "[P]etitioner had no history of pain, inflammation, or dysfunction of her right shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* Respondent further agrees that Petitioner suffered the residual effects of her injury for condition for more than six months. *Id.*
