RULING ON ENTITLEMENT¹

On February 1, 2021, David K. McQuinn filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the "Vaccine Act"). Petitioner alleged that he suffered injuries, including Guillain-Barré syndrome ("GBS") as a result of the influenza ("flu") vaccine administered in his left deltoid on November 27, 2018. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On June 3, 2022, Respondent filed his Rule 4(c) report in which he **concedes** that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the accompanying Qualifications and Aids to Interpretation ("QAI"), which afford Petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days

after a seasonal flu vaccination and there is no apparent alternative cause. Rule 4(c) Report at 5-6 (citing Vaccine Act sections 14(a)(XIV)(D), (c)(15).

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
