RULING ON ENTITLEMENT¹

On August 4, 2021, Anthony Flores filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barré syndrome (“GBS”) as a result of an influenza (“flu”) vaccine he received on October 24, 2019. Petition at 1. Petitioner further alleges that he suffered the residual effects or complications of his injury for more than six months after vaccine administration. Petition at 3. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On September 8, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent states that “petitioner has satisfied the criteria set forth in the

Vaccine Injury Table and the Qualifications and Aids to Interpretation, which affords petitioner a presumption of causation if onset of GBS occurs between three and forty-two days after receipt of a seasonal flu vaccination and there is no apparent alternative cause.” *Id.* at 7. Respondent further agrees that “the case was timely filed, that the vaccine was received in the United States, and that petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of his injury for more than six months after vaccine administration.” *Id.* Respondent states that Petitioner is entitled to compensation. *Id.* at 1.

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
