RULING ON ENTITLEMENT¹

On April 4, 2022, Katelin Whiddon filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a Table shoulder injury related to vaccine administration (“SIRVA”), as the result of an influenza (“flu”) vaccination received on September 18, 2020. Petition at 1. Petitioner further alleges that her symptoms have continued for more than six months. Petition at 17. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On September 10, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent states that “[s]pecifically, petitioner had no history

Respondent further agrees that "petitioner suffered the residual effects of her condition for more than six months"... and therefore, "based on the record as it now stands, petitioner has satisfied all legal prerequisites for compensation under the Act." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.
