On October 28, 2022, Alpha Patrick filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered from Guillain-Barre Syndrome (“GBS”) following an influenza (“flu”) vaccination on September 28, 2020. Petition at 1. Petitioner further alleges that the vaccine was administered within the United States, that she suffered the residual effects of her injury for more than six months, and that there has been no award or settlement on her behalf related to her injury. Petition at 1, 3. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On December 29, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation for GBS following a flu vaccination. *Id.* at 8-9.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
