RULING ON ENTITLEMENT¹

On November 21, 2022, Ilene Robinson Sunshine filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). On June 26, 2023, Petitioner filed an amended petition. Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on October 17, 2020. Amended Petition at 1. Petitioner further alleges that she received the vaccine in the United States, her symptoms persisted for more than six months, and no lawsuits have been filed or settlements or awards accepted by anyone, including Petitioner, related to her vaccine-

related injuries. Amended Petition at ¶¶ 21, 23, 24. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On December 22, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 5-6. Respondent further agrees that the medical records demonstrate that Petitioner suffered the residual effects of her condition for more than six months and has satisfied all legal prerequisites for compensation under the Act. *Id.* at 6.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
