RULING ON ENTITLEMENT¹

On December 30, 2022, John Sherwood, Jr. filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a Table injury – Guillain-Barré Syndrome (“GBS”) as a result of his December 12, 2019 influenza (“flu”) vaccination. Petition at 1-2; Amended Petition filed April 26, 2024 at 1-2. Petitioner further alleges that he received the vaccine in the United States, and that he suffered the residual effects of his injury for more than six months. Amended Petition at ¶¶ 4, 19. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2018).

On September 3, 2024, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that

[m]edical personnel at the Division of Injury Compensation Programs, Department of Health and Human Services, have reviewed the petition and medical records filed in the case. It is respondent's position that petitioner has satisfied the criteria set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation, which afford petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination and there is no apparent alternative cause.

Id. at 8-9 (citing 42 C.F.R. § 100.3 (a)(XIV)(D), (c)(15)).

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
