RULING ON ENTITLEMENT¹

On May 11, 2023, Kristine Eldridge filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). On May 22, 2024, Petitioner filed an amended petition. Petitioner alleges that she suffered a right shoulder injury related to vaccine administration (“SIRVA”) resulting from adverse effects of a tetanus vaccine received on August 30, 2021 in her right shoulder. Amended Petition at 1. Petitioner further alleges that the vaccine was administered in the United States, her symptoms have persisted for more than six months, and neither Petitioner, nor any other party, has ever filed any action or received or accepted compensation in the form of an award or settlement for Petitioner’s vaccine-

related injury. Amended Petition at ¶¶ 4, 25-27. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On May 8, 2024, Respondent filed an amended Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Amended Rule 4(c) Report at 1 (ECF No. 20). Specifically, Respondent agrees that Petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table in that "petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 6. Respondent further agrees that the records demonstrate that Petitioner suffered the residual effects of her condition for more than six months and has satisfied all legal prerequisites for compensation. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
