RULING ON ENTITLEMENT¹

On October 26, 2023, Kristen Nelson filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered Guillain-Barre Syndrome (“GBS”) as a result of an influenza (“flu”) vaccine administered on September 2, 2021. Petition at 1. Petitioner further alleges that the vaccine was administered within the United States, that she suffered the residual effects of her injury for more than six months, and that there has not been an award or compensation for her injuries. Petition at 17-18. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On June 26, 2024, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation for the claim that a flu vaccine caused her GBS. *Id.* at 9.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
