On January 5, 2024, Melissa Arcement filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner further alleges that she suffered the residual effects of her condition for more than six months. Petition at 11. The case was assigned to the Special Processing Unit of the Office of Special Masters.

with SIRVA as defined by the Vaccine Injury Table. Specifically, petitioner had no history of relevant pain, inflammation, or dysfunction of her right shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain and reduced range of motion was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 5. In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.
