RULING ON ENTITLEMENT¹

On April 3, 2024, John Lynn Stedje filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a “Table Injury” of Guillain-Barre Syndrome (“GBS”) following an influenza (“flu”) vaccination received on September 24, 2021. Petition at 1. Petitioner further alleges that he suffered the residual effects of his injury for more than six months, and that there has been no prior award or settlement of a civil action on his behalf as a result of his injury. Petition at 1, 8-9. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

On January 6, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner's injury is consistent with a GBS injury as defined by the Vaccine Injury table. *Id.* at 6-7.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
