Filed: March 12, 2025

Ronald Craig Homer, Conway, Homer, P.C., Boston, MA, for Petitioner.

Christopher Pinto, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On May 9, 2024, Jerry Wayne Roden filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”), which he amended on August 21, 2024. Petitioner alleges that he suffered a shoulder injury related to vaccine administration (“SIRVA”) resulting from an influenza vaccine received on October 16, 2022. Amended Petition at 1. Petitioner further alleges that the vaccine was administered in the United States, he suffered the residual effects of his injury for more than six months, and no lawsuits have been filed or settlements or awards accepted by anyone, including Petitioner, due to his vaccine-related injury. Amended Petition at ¶¶ 17-19. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2018).

On March 10, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that Petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table in that "petitioner had no history of pain, inflammation, or dysfunction of his left shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain and limited ROM were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 6. Respondent further agrees that the records demonstrate that Petitioner suffered the residual effects of his condition for more than six months, and has satisfied all legal prerequisites for compensation under the Vaccine Act. *Id.* at 6-7.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
