On June 12, 2024, Linda Culliton filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) after receiving an influenza (“flu”) vaccination on November 3, 2022. Petition at 1. Petitioner further alleges she had no history of pain or dysfunction in her left shoulder prior to vaccination; that her pain began within 48-hours of receiving the flu vaccination; that her pain and reduced range of motion was limited to her left shoulder, and that no other condition or abnormality has been identified to explain her left shoulder pain. *Id.* The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 12, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent is satisfied that all the legal prerequisites for compensation under the act have been met based on the record as it now stands. *Id.* at 6.
