RULING ON ENTITLEMENT¹

On June 12, 2024, Lynn Louise Torreso filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that her husband suffered from Guillain-Barre Syndrome (“GBS”) following an influenza vaccination he received on October 19, 2022. Amended Petition at 1. Petitioner further alleges that Mr. Torreso’s vaccine-related GBS resulted in his death. *Id.* The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2018).

On November 4, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that "Petitioner has satisfied the criteria set forth in the Table and the Qualifications and Aids to Interpretation ("QAI"), which afford Petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after as seasonal flu vaccination and there is no apparent alternative cause. *Id.* at 5. Respondent further agrees that, "based on the record as it now stands, Petitioner has satisfied all legal prerequisites for compensation under the Act." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
