### **RULING ON ENTITLEMENT<sup>1</sup>**

On October 17, 2024, Sandra Johnson filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that that she suffered a shoulder injury related to vaccine administration (“SIRVA”) caused by an influenza (“flu”) vaccine received on October 12, 2023. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 6, 2026, I issued findings of fact, ruling that the vaccine was likely administered in Petitioner’s left shoulder (ECF No.19). On March 4, 2026, Respondent filed an amended Rule 4(c) report in which, in light of my January 5, 2026 ruling

concerning situs, he concedes that Petitioner is entitled to compensation in this case. Respondent's Amended Rule 4(c) Report at 1-8. Specifically, Respondent agrees that in light of my fact ruling concerning situs, Petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table in that "petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain and reduced ROM [were] limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 8. Respondent further agrees that the records demonstrate that Petitioner suffered the residual effects of her condition for more than six months, and in light of the January 5, 2026 fact ruling and record, Respondent does not dispute that Petitioner has satisfied all legal prerequisites for compensation under the Vaccine Act. *Id.* at 8-9.

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
