RULING ON ENTITLEMENT¹

On January 8, 2025, Ginger Terrill (“Petitioner”) as personal representative of the estate of Carol Terrill, filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that the deceased, Carol Terrill (“Ms. Terrill”), suffered a shoulder injury related to vaccine administration (“SIRVA”), as the result of an influenza (“flu”) vaccination Ms. Terrill received on or about October 20, 2022. Petition at 1. Petitioner further alleges that Ms. Terrill suffered the residual effects of her condition for more than six months. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On October 22, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that "Ms. Terrill's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, Ms. Terrill had no history of pain, inflammation, or dysfunction of her right shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain and reduced range of motion were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain Ms. Terrill's shoulder pain." *Id.* at 4-5. Respondent further agrees that Ms. Terrill suffered the residual effects of her condition for more than six months. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
