**RULING ON ENTITLEMENT<sup>1</sup>**

On January 10, 2025, Barry Cohen filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”), which he amended on July 9, 2025. Petitioner alleges that he suffered Guillain-Barré syndrome (“GBS”) resulting from an influenza (“flu”) vaccine received on December 10, 2023. Amended Petition at 1-12. Petitioner further alleges that the vaccine was administered in the United States, his injuries persisted for more than six months, and neither Petitioner, nor any other party, has ever brought an action, or received compensation in the form of an award or settlement, for Petitioner’s vaccine-related injuries. Amended Petition at ¶¶ 5, 33, 38, 39. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On January 12, 2026, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table and Qualifications and Aids to Interpretation, which afford Petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination and there is no apparent alternative cause. *Id.* at 4.

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
