RULING ON ENTITLEMENT¹

On April 24, 2025, Sharon Matzek filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleged that she suffered Guillain-Barré Syndrome (“GBS”), a defined Table injury, or in the alternative caused-in-fact injury, after receiving an influenza (“flu”) vaccine on October 6, 2023. Petition at 1, ¶¶ 2, 32. Petitioner also alleged that she received the vaccine within the United States, that she suffered the residual effects of her GBS for more than six months, and that neither she nor any other party has filed a civil action or received compensation for her GBS, alleged as vaccine caused. *Id.* at ¶¶ 2, 31,

33-34. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On October 23, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded "that [P]etitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and Qualifications and Aids to Interpretation ("QAI"), which afford [P]etitioner a presumption of causation." *Id.* at 7.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
