On March 12, 2026, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that,

[the Division of Injury Compensation Programs] has concluded that [P]etitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, [P]etitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; shoulder pain occurred within forty-eight hours after receipt of an intramuscular Td vaccination; shoulder pain and reduced ROM were limited to the side in which the vaccine was administered; and no other condition or abnormality has been identified to explain [P]etitioner's shoulder pain. 42 C.F.R. § 100.3(a)(1)(C), (c)(10). Additionally, based on the medical records outlined above, [P]etitioner suffered the residual effects of her condition for more than six months. Therefore, based on the record as it now stands, [P]etitioner has satisfied all legal prerequisites for compensation under the Act. See 42 U.S.C. § 300aa-11(c)(1)(D)(i), -13(a)(1)(B).

*Id.* at 8.

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
