RULING ON ENTITLEMENT¹

On October 2, 2025, Linda Keys filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) after receiving an influenza vaccination on September 16, 2024. Petition at 1. Petitioner further alleges that she suffered the residual effects of her injury for more than six months. *Id.* The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 27, 2026, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2018).

1. Specifically, Respondent notes that Petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination, that pain began within 48 hours of vaccination, that Petitioner's symptoms were limited to her left shoulder, and there has been no other condition or abnormality identified to explain Petitioner's shoulder pain. *Id.* at 4. Therefore, Respondent states that Petitioner "has satisfied all legal prerequisites for compensation under the Act." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
